

LET'S CANCEL CANCER

Is it OK to constantly ignore?

What is this dreadful virus?

Cancer, (also known as leukemia), is the uncontrolled growth of abnormal cells in the body. Cancer develops when the body's normal control mechanism stops working.

How can we help?

We can help raise money for all the cancer patients who suffer from this disease by: Hosting a Bingo night, Plan a guided hike, Teach yoga classes and so much more!

CANCER

may have started this fight, but we will **END IT!**⁹⁹

One of cancer's victims

Chadwick Boseman, who was an actor, recently died from cancer. He lived up to 43 years.

Life isn't about waiting for the storm to pass...
It's about learning to dance in the rain.⁹⁹

Protect yourself

Start protecting yourself by avoiding tobacco and other drugs.
