Tuesday 12th January 2021: Girl and Robot <https://www.youtube.com/watch?v=5Qx5hf1zLmk>

- Watch this video from the Literacy Shed carefully, at least once.
- Now create a story board for the story to retell the story of the Girl and Robot. Use the screen shots below to help you.
- You can use a combination of drawings, captions, speech and thought bubbles.
- Can you create your own ending for the story to continue it further?

Thursday 14th January: Write a set of instructions for making a robot out of junk and recyclable materials. Remember to include an introduction and an equipment list. Use numbers or bullet points for each step and make sure you use imperative 'bossy' verbs to make sure your instructions are clear. Look at this example of *How to make a model bull* as a reminder of how to set your instructions out.

How to make a model bull

These attractive, brightly coloured bulls are easy to make; you can even use items that might be in your recycling bin. The design is also very simple to adapt so that you can make a wide range of animals. Why not try making a recycled zoo?

You will need...

- A red yoghurt pot
- 4 wooden lollipop sticks
- Coloured foam sheets (2 colours)
- A piece of black card
- 2 wobbly eyes
- A small cardboard box (a stock cube box is a good size)
- Scissors
- Glue
- Glitter pens

Method...

1. Firstly, ensure you have checked that you have the correct equipment.
2. Next, take the small cardboard box and glue the ends shut.
3. Then, glue the four lollipop sticks (like legs) onto each corner, carefully.
4. After that, cut the first foam sheet so that it fits over the box and hangs slightly below the edge. You may need an adult to help you make sure it is accurate. Glue it into position.
5. Next, select the second colour of foam and create a smaller blanket for your bull. Before you glue it into position, decorate it with your glitter pens.
6. Then, attach the yoghurt pot head into position on one end of the box.
7. Now cut two small triangular ears, and two circular nostrils, and glue onto the pot.
8. Finally, glue on the two wobbly eyes, and your bull is complete.

Try creating a pig by using a pink yoghurt pot and pink body, or why not make a lion by using a yellow yoghurt pot and creating a foam mane. The possibilities are endless!
