In French, we say “je porte”, which means, “I am wearing...”  
We can also use the word ‘et’ to mean and.  
It is also important to remember that the colour of the garment comes at the end of the sentence in French.

Cut out the people and draw as many different garments as you wish onto them before describing what they are wearing. Use the names of clothes and colours from last week, and the French “je porte” meaning, “I am wearing.”
